## EDUCATION

---

### Carleton University

Bachelor of Computer Science Honours (Co-op)

Ottawa, ON

Expected May 2028

- **Stream:** Software Engineering
- **CGPA:** 12.0/12.0

## SKILLS

---

**Languages:** Python, Java, C, JavaScript, HTML, CSS, Sass, SQL

**Libraries and Frameworks:** Django, React, Bootstrap

**Development Tools:** Git, PostgreSQL, SQLite, UNIX/Linux, Bash, pip, Homebrew

## PROJECTS

---

**Brook** | Python, Django, JavaScript, HTML, CSS, Sass, Bootstrap, PostgreSQL

- Developed a **full-stack web app** allowing YouTube and Spotify track and playlist downloads
- Built a Django-based back-end system implementing **user authentication** and a **RESTful API**, allowing users to create accounts and save playlists, enabling the effortless identification and downloading of newly added tracks
- Implemented a **normalized relational database** with PostgreSQL and Django's ORM to manage track, playlist, and user account data
- Integrated both **Server-Side Rendering** to optimize load times and **Client-Side Rendering** to provide dynamically generated content
- Utilized YouTube Data and Spotify Web **APIs** to gather track and playlist information, enhancing functionality for both front-end and back-end systems
- Successfully deployed from GitHub to Heroku while managing dependencies

**The Wildfire Network** | Python, Django, HTML, CSS, Sass, Bootstrap

- Developed a **full-stack web app** providing latest news and data on Canadian wildfires with a custom made wildfire prediction algorithm during Ignition Hacks 2023
- Guided and mentored a **team of three** throughout the event and conducted comprehensive **code reviews** to ensure project coordination and collaboration
- Implemented a wildfire prediction algorithm using real-time weather data retrieved from **WeatherAPI** to measure risk of wildfire in a given area

**JBKR Mobile** | Java

- Developed a Java **desktop application** that simulates a stock trading application, allowing users to create and manage stock profiles with access to real-time data from the NYSE and Nasdaq
- Led a **team of three**, facilitating individual role assignments while facilitating **pair programming** sessions
- Obtained real-time stock market data by employing the use of YahooFinance **API**

## EXTRA-CURRICULARS

---

### CU Esports Officer

Sept 2023 – Present

Carleton University

Ottawa, ON

- Fostered a vibrant community of **3200+ members** by organizing weekly online gaming events at Carleton University, providing a platform for students to engage in competitive and social experiences
- Worked closely with admins while hosting weekly tournaments to ensure event success

### Coding Club Homework Assistant

Sept 2022 – June 2023

A.Y. Jackson S.S.

Toronto, ON

- Guided a club of **300+ students** through identifying and **debugging** coding errors while conducting **code reviews**

### Math and Coding Tutor

Nov 2021 – Aug 2022

Youth Dream Canada

Toronto, ON

- Mentored **4 grade 1-9 students** in one-on-one lessons through bi-weekly lectures and assignments
- Encouraged open conversation and active participation to promote a deeper understanding of lesson topics
- Tailored lesson plans to fit the needs of individual students
